have been memorising. We shall

write down what teacher will **read**

intrigues are not what they are

propagated as. Computer cannot do

only what **hackers** know. Results of

our efforts **are not only what** we expect.

What man **experiences** **leaves**

indelible effects on his life. Man

remembers **what** **he experiences**.

What we are told on media is **false**.
We **believe what** we are told on
media. **What** we study in history is
concocted. We cannot understand
without comparison what is
written in history. What man
suffers **during** ordeal **shows** him
right path in life **thenceforth**.
People learn **nothing from what**
one suffers during ordeal. What is
written in books is **futile** in
practical life. We **get impressed**
with what is written in books. What
we **memorise** affects us. We forget
soon what we **mug up**.

Bible for the Christians is what
Quran for the Muslims. Man for
woman is not what woman for man.

Music for soul is what oxygen for body. Examinations for reluctant student are what Big Eid for goats. I am no longer what I was. Transistor for computer is what brain for man. History for the world is what memory for man. Books have remained no longer what they used to be. Toys for children are what gold for woman. Teacher for student should be what parents for children. Ice in Europe is what sand in Africa.

So long as you **remain** awake you will keep **yawning**. So long as he **remained** asleep, he **kept snoring**. **Until** he **wakes** he will keep snoring. So long as he will remain asleep he will keep snoring. So long as man **remains alive** his heart **keeps beating**. **Until** man dies he **keeps his fingers crossed**. So long as he was tortured, he kept groaning. **Until** prisoner was tortured, he **kept quiet**. So long as we keep taking precautionary measures **fear of disease** will **keep away**. **Until** we take precautionary measure, fear of disease **will keep looming**. I shall have to stay there **so long as** he stays here.

Until I **study with diligence** parents will keep scolding me. So long as people will keep **trusting** rulers the latter will not **shirk from** looting Pakistan. **So long as** WWII **continued** **conscription** remained **imposed** in Germany.

We **had better** **not** **trust** rulers. You **had better** wake in time. They **had better** **not** **make** false promise. **Vote** **had better** **not** **be** **cast**. **Laws** **had better** **be** **abided by**. None **had better** **be** **antagonised**. **We** **would** **have** **better** **not** **trusted** rulers. **You** **would** **have** **better** **woken** in time. **They** **would** **have** **better** **not** **made** **false** **promise**. **Vote** **would** **have** **better** **not** **been** **cast**. **Laws** **would** **have** **better** **been** **abided by**. None **would** **have** **better** **been** **antagonised**.
