

PREPS PAGE TWO: COL ONE

Common man is devoid of common sense. Third world has been devoid of state stability.

People have been devoid of bare necessities. People are devoid of

bare necessities. Women have long been devoid of their rights.

Repeated failures deprive even a victor of admiration. Nazis had

deprived Jews of all their assets.

Rage deprives man of wisdom.

People have been deprived of bare necessities.

America was not worthy of being trusted. Only pious people are

worthy of being men of God. Only

pious people are worthy of being

called men of God. Only Allah is worthy of **being** worshipped. Hitler was not worthy of **being** chancellor of Germany. India **were** not worthy of being cricket **champions**. Many are not worthy of **being** our leader.

Everyone is **disappointed at** rising price-hike. Everyone will be **disappointed at** price-hike. Everyone has been much **disappointed with** rulers. Sometimes man **despairs of** God. World has **despaired of** Obama. **Contented persons** never **despair of** God. People are disappointed **with** government at loadshedding. Government will **no more dis-**
appoint people.

Devil conspiracies became **curse to** Europe in 1914. Veto power is becoming **headache to the** United Nations. **Veto power** will become **nuisance to** the United Nations. Energy crisis has become **menace to** Pakistanis. Load shedding has been **scourge to** country for 20 years. Nationalism is again becoming **menace to** European peace. **Brexit** will soon become **nuisance to** Britain.

Success **is subject to** diligence. **Pleasant** old age is **subject to** **energetic** youth. Creation of Pakistan **was subject to** success of Muslim League in **elections**. **Prosperity** of nations is subject to good **education**.

PREPS PAGE TWO: COL TWO

Only **talks** can **hammer out** solution to problem. The **UN** had **hammered out** Kashmir problem. **Good strategy** is **complementary to hammer out** solution to problems. America and Taliban can **hammer out some reconciliation**. Russia and America at last **hammered out ceasefire** through talks. Timely action **hammers out solution** to dispute. **Partial UN** cannot **hammer out solution** to **Palestine** problem.

Muslim countries should **iron out** their differences. No power **in** the world can **iron out** ideological differences. Only **tolerance** can iron out **Iran-Saudi** differences. Only **war**

havocs could compel Europe to **iron out** its differences. **Arbitration** of the **United Nations** has **ironed out** **myriads of** clashes.

Never give in. Inconsistent people **give in to** problems early. America had to give in to **Vietnam War at last.** Our team **gives in to pressure.** Giving in to **tribulations** is **contradictory to** bravery. Iran has never **given in to threats** of America.

Parents **cave in to** wish of children. Political parties were bound to **cave in to** establishment of **military courts.** Govt **caved in to** **local bodies polls** **reluctantly.** Defeated nation **is bound to cave in to** all conditions. Opposition **unwillingly caved in to caretaker setup..**

Most people keep **raking over** past. Some people are **given to** raking over past. Hindustan keeps raking over **creation** of Pakistan. Pakistanis keep **raking over** every elected government's coming to power.

New success amends for previous failure. Every victory **makes up for** previous failures.

No delights can **amend for** loss of time. New **virtues** cannot **amend for** old sins. No **compensation** can compensate for loss of time.

Prosperous **future** can **make up for deprivations** of past. Mankind should **look forward to** God.

Pakistan will **give up on** America.

PREPS PAGE TWO: COL THREE

Europe blames only Hitler for WWII.

Third world blames America and

Britain for its problems. We blame

luck for our failures. We are given to

blaming luck for our failure. Analysts

blame racism of Europe for WWI.

Self-esteemed people never blame

others for their mistakes.

We should attribute all qualities to

God. Actresses ascribe success of

film to their good acting. Obedient

children owe their success to

parents. Our most problems can be

ascribed to our negligence or

mistakes. We attribute creation of

Pakistan to pertinacious leadership

of Quaid-i-Azam. Many people are

ascribing popularity of internet to Facebook. Europe ascribes its prosperity to its pertinacious leadership. Haughty people ascribe every success to their efforts.

Impassioned supporters vote for their leader only. Muslims of Hindustan voted for Muslims for the sake of separate homeland. Voting for tyrant ruler is abyss of folly. Secret balloting gives voter chance to vote for candidate of his choice. Voting for incumbent ruler despite adversity is treason with nation. Not casting vote is punishable offence in the Netherlands. Casting vote has been declared national duty. Disgruntled people oppose casting vote.

We all are answerable to God. We all are answerable to God for our deeds.

Man has always been answerable to God for his deeds. Prime minister is answerable to legislature. Each sub-

ordinate is accountable for use of his powers. Every subordinate is

accountable to his officer for use of

his powers. President is not accountable to parliament for use of

discretionary funds.

Inept officers appoint inept subordinates to top seats. Because of

favouritism, only pets are appointed to top posts. Every sycophant

journalist is appointed PTV chairman.

Most relatives were appointed

ambassador because of nepotism.
